the woman, who was alice's aunt, considered her niece an odd and baffling child—a girl who preferred capturing frogs to playing with dolls; a girl who liked to keep snakes as pets.

and of simple party politics no-one would deny that extending the popular vote to women was the right thing.

indian women were both sexually violated or carried off, while the men were often removed and stranded from their homes.

to other areas of the body, and its association with other symptoms, such as jaundice (yellow skin),
